

FOR HIGHEST DEMANDS AND GOOD MOOD

Kömmerling 88 centre seal Standard

WINDOWS FOR LIFE

Kömmerling 88 centre seal
Standard

The Kömmerling 88 premium centre seal system combines energy efficiency with a feel good climate, quality with longevity and living space design with sustainability. Thanks to its high-insulation seven-chamber centre seal system, the standard version is already passive house compatible. So it's perfect for energy savers.

USER-FRIENDLY

- For the highest sound insulation requirements
- Improved handling ease and reliable functionality through the use of state-of-the-art technology
- Easy to clean, long-lived and robust

ADAPTABLE

- Classic PVC-U white, foiled in wood grain, plain or metallic colours as well as available in the innovative surface technology proCoverTec
- Great product diversity: Window, balcony and terrace doors

INNOVATIVE

- For ultra-modern triple glazing or functional glazing with a thickness of up to 58 mm
- Large glazed areas and narrow, extremely stable PVC-U profiles

SUSTAINABLE

- Premium centre seal system for windows and doors with an installation depth of 88 mm
- Passive house compatible according to ift guideline WA-15/2 in the standard design
- Excellent thermal insulation values: U_f value = $0.95 \text{ W}/(\text{m}^2\text{K})$ in the standard version and U_w value up to $0.72 \text{ W}/(\text{m}^2\text{K})$
- Optimised and thus resource-saving use of materials up to profiles made of 100% recycled material
